DETAILED ACTION

Applicants' response, which included cancellation of claims 1-47 and addition of new claims 48-60, filed on 4/28/2008, is made of record. Claims 48-60 are now pending. In view of applicants' response, all 112 first and second paragraph[h] rejections made in the previous office action have been obviated. On addition, all 102 and 103 rejections made in the previous office action have been obviated. However, the following new ground of rejection as necessitated by the applicants' amendment is applied to claims 48-51, 53 and 59.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 48-51, 53 and 59 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood et al., WO 02/099388.

Wood et al., teaches several benzodiazepine compounds bearing phenyl-piperidine-piperidine groups, which include instant compounds. See page 3, formula 1. Note when R² is the third choice recited therein the compounds taught by Wood et al., generically include instant compounds. See entire document. Especially see page 28-29, examples 2 and 3.

While these compounds no longer anticipate the instant claims in view of the applicants amendment, the render instant claims obvious variant. Although, Wood et al.,

teach compounds with third choice of R^2 as claimed now in the instant claims with q is not zero, Wood et al., teaches equivalency of those compounds taught with those generically claimed. Hence, it would be obvious to one trained in the art to make all compounds with various choices of R^2 including the third choice recited therein and expect these compounds have the use taught therein.

Allowable Subject Matter

Claims 58 and 60 are allowed barring finding of any prior art in a subsequent search. Claims 52 and 54-57 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
